

This comment is in reference to the national radio station

-- K-Love. We receive this station on 90.7.

K-Love broadcasts positive music every hour of every day.

There are no curse words from either the music or the disc jockeys. I listen to this station and it encourages me in my daily life.

K-Love connects to our community. They give news updates plus update our local community on local events.

If this station's broadcast capacity is lessened by a LPFM, our community will be hurt, emotionally, physically, and spiritually. K-Love's mission serves the public interest.

They encourage the public to serve their community, vote, take part in local church and/or school programs.

Chesapeake will be hurt if a LPFM is put on our radio dial instead of K-love. Thank You.
